Fenton park to get trail connection

SPECIAL TO THE POST-DISPATCH | Posted: Tuesday, August 2, 2011 12:01 am

FENTON • Fenton plans to build a trailhead and a trail connection for the Meramec Greenway Trail in Fenton Olde Towne Plaza Park.

The Board of Aldermen approved an agreement between the city and the Great Rivers Greenway District last week. A federal grant program has committed \$51,521 to the project, while Fenton will contribute \$31,538 in labor and equipment costs to the first phase of the project, which consists of a parking lot, crosswalk and pedestrian stoplight.

The grant money will be available after the work has been completed, City Administrator Mark Sartors said.

Fenton plans to start building as soon as the bidding process is complete, in late summer or fall, Alderman Chris Clauss said.
